✅ BJP4 Exercise 1.4: Difference

Language/Type: ☕ Java basics classes escape sequences println
Author: Marty Stepp (on 2016/09/08)

Write a complete Java program in a class named `Difference` that prints the following output:

```
What is the difference between
a ' and a "?  Or between a " and a \"?

One is what we see when we're typing our program.
The other is what appears on the "console."
```

Type your solution here:

```java
1  public class Difference{
2  public static void main(String[] args){
3  System.out.println("What is the difference between");
4      System.out.println("a \' and a \"?  Or between a \" and a \\\"?\n");
5      System.out.println("One is what we see when we're typing our program
6      System.out.println("The other is what appears on the \"console.\"");
7
8  }
9
10 }
```

This problem asks for a **complete program.** Write a complete Java program as a class with a `main` method. (You do not need to write any `import` statements.)
